

Sound Start Babies Awarded Sue Adler Donation

Congrats to Sound Start Babies for the great work you are doing for deaf children in our community. The gift you give is life changing for the children and families you help.

The Sound Start Babies program helps babies who are deaf or hard of hearing receive the therapies they need regardless of their financial status during the most critical years of brain development- birth to age 3. In this time frame, a baby's brain is making crucial connections for learning to listen, speak, and communicate. Delaying therapies can cause irreversible effects to the brain. Public funding only covers 1/3 of intervention costs, making The Sound Start Babies Foundation's fundraising essential to the *Sound Start Babies*™ Program.

The Sue Adler Team is honored to be able to support an amazing local charity doing good right here in our own backyards! We are looking forward to a long relationship!

The Sue Adler Team of Keller Williams Realty has been the #1 Producing Real Estate Team in NJ's Midtown Direct Towns for the past 5 years, and was ranked #1 for Best Real Estate Agents in New Jersey by Real Trends/Zillow/Trulia for 2017, having provided the highest level of service to 200 families who either bought or sold homes last year. They are a team of specialists who pride themselves on pro-active personalized service, great results for their clients, and giving back to the communities they serve.

For the past three years, The Sue Adler Team has run its 100th Home Sale Charity Program where they donate \$20,000 amongst 6 local charities as voted on by the community. This year, they were blown away by the response, as votes totaled greater than 40,000, and Sound Start Babies was the recipient of \$2,000!
